

Animal Welfare Ministry

An invitation to host an Education and Awareness forum on animal welfare concerns.

The diocesan team has developed a one-hour presentation on animal welfare ministry, designed for a Sunday morning adult Christian formation setting.

We invite theological reflection on hot-button issues such as factory farming and laboratory animal testing, and offer realistic actions and lifestyle changes that address these and other animal welfare concerns.

Please contact Deacon Christopher Cox (ChristopherECox@aol.com) for more information or to schedule a forum at your parish.
