

Ideas for “Greening” your Parish

- ❖ Conducting a building Energy Audit, (including transition to LED lights)
- ❖ Utilize [Sustain Island Home](#) Carbon Tracker to reduce the parish carbon footprint.
- ❖ Eliminate single-use plastics, replacing them with reusable or compostable materials.
- ❖ Eliminate/reduce the use of toxic chemicals (eg cleaning agents) where eco-friendly alternatives exist.
- ❖ Promote environmental clean-up events and wildlife habitat protection.
- ❖ Host educational and awareness events and presentations. (See material available from "[Blessed Tomorrow](#)")
- ❖ Distribute regular parish communications on the topic of Creation Care.
- ❖ Create a permanent Creation Care space or display in your church.
